

I am proud to present my 2009/10 portraiture packages.

I offer two packages to allow you ultimate flexibility with your portrait and family photography requirements. These packages are suitable for all members of the family – from babies to Grandparents. They also make wonderful and unique gifts!

Unlike other photographers – who charge a low sitting fee but don't include any prints with this – all of my packages offer prints and the option to purchase digital files from your shoot (royalty free of course). I believe this represents excellent value for money as there are no hidden costs. Please don't hesitate to email me should you have any further questions.

Ruby Package £200

- Minimum 1 hour shooting time
- At your home or on location. I will provide portable studio equipment for indoor sessions to ensure the best possible pictures
- Web proofs available online to view 10 working days (i.e. 2 weeks) after your session
- 10 inclusive prints, un-mounted (maximum size 9"x6"). Choice of colour, black/white and sepia
- 3 inclusive digital files of your choice (royalty free – make as many extra prints as you like!)

Diamond Package £300

As per the Ruby Package, plus:

- 2 inclusive DVDs in presentation box, containing a multimedia presentation of all of your photos (viewable on your TV). These make wonderful gifts for parents, grandparents etc.

Digital Extra +£100

- For an additional £100 I will provide a DVD containing all the digital files of your session, on a royalty free basis (i.e. you have my permission to print unlimited copies of these photos). Add this cost to either of the packages above, as required. This option may also be taken up after the session.

10% discount on the above prices for previous wedding customers

All packages and prices are subject to change at any time. A £100 deposit is required to secure booking (non-refundable). Full amount must be settled 4 weeks before session. Terms and conditions apply.
