

I am proud to present my 2010 wedding packages.

I offer three standard packages that I hope will cater to your needs as well as your budget. I am proud of the fact that each of these packages include prints (or an album) as well as digital files (provided royalty free), a mix that I believe meets the needs of the modern couple. This year I have enhanced my packages, to offer the most cost-effective mix whilst still delivering **comprehensive full day** coverage. All packages are fully customisable to your requirements. Please don't hesitate to email me should you have any further questions.

NOTE: *Packages effective 01 Jan 2010 (revised to reflect VAT increase)*
